

URGENT ALERT!

ALL EMPLOYEES MUST BE UPDATE TO DATE ON ALL ADULT VACCINES!

SB 792 would eliminate an adult's right to exempt themselves from one, some or all vaccines. **Early Childhood / Preschool Teachers in Public and Private Schools** will be required to have all vaccines (except HPV) from CDC list. To hire or employ an individual who was not up-to-date on required vaccines would be a crime.

SB 792 Text: Commencing September 1, 2016, a person shall not be employed at a day care center if he or she has not been immunized according to the schedule for routine adult immunizations, as recommended by the federal Centers for Disease Control's Advisory Committee on Immunization Practices, with the exception of immunization against human papillomavirus (HPV). Because the bill would extend the application of a crime under the act, the bill would impose a state-mandated local program.

WHY ADULTS REJECT MANDATED VACCINATIONS ?

MMR & CHICKEN POX are live virus vaccines. Recently vaccinated teachers caring for newborns & toddlers will expose them to the diseases.

Most workers in the field are female, many in childbearing ages. **Not all shots have been tested in pregnancy, but that doesn't qualify as a medical exemption.**

Vaccines are against many individuals' moral and religious convictions. Vaccines created with animal products, aborted fetal cells and

heavy metal toxins are a violation of personal beliefs. Childcare workers will be forced to violate their convictions or lose their job.

Vaccines are pharmaceutical products that cause injury and death for some. The United States Government has paid out more than \$3 billion dollars to vaccine victims. Vaccines are created with ingredients such as antifreeze, formaldehyde, MSG, neomycin and polymyxin antibiotics, borax, toxins such as sodium phosphate have caused many people adverse reactions. Nobody can predict who will be harmed from vaccines.
